ASG Helicopter Pilot Placements Top 200

Roanoke, TX March 5, 2019: While the shortage of qualified helicopter pilots has left much of the aviation industry scrambling to keep up with hiring demands, Aviation Search Group is having no problems finding and placing pilots. A direct-hire, executive recruiting firm, Aviation Search Group has placed over 200 helicopter pilots – more than any other recruiting firm over the same time span, making them a go-to recruiting firm for pilot recommendations and screening.

Aviation Search Group Managing Director Brad Stemmler says of the shortage, “Four years ago, the industry as a whole began to feel the impact of the shortage of qualified aviation professionals; since that time, we have directly placed over 200 helicopter pilots for various operators throughout the world.” He continued, “As the demand for pilots continues to grow, we have found more and more operators are turning to us to solve their hiring dilemmas. Our proprietary *IQR Process*, along with our 20 years of experience in this industry, ensures we find people to not just fill an open position, but to grow with a company long-term.”

Representatives from Aviation Search Group will be on-hand at Heli-Expo in Atlanta, Booth #C2429, to discuss hiring solutions in the face of this growing shortage.
